

**AMENDMENTS TO THE SPECIFICATION**

Amend the paragraph at page 1, lines 7-9 as follows:

This application is a continuation-in-part of USSN 08/680,395 (U.S. Patent 5,892,010), filed on July 15, 1996, which is ~~which is related to copending U.S. Patent Application, USSN 08/546,130, filed October 20, 1995, both of which are~~ incorporated herein by reference for all purposes.

Amend the paragraph at page 29, lines 27-31 as follows:

As indicated above, this invention identifies protein products of genes in the 20q13 amplicon that are associated with various cancers. In particular, it was shown that 20q13 proteins (~~e.g., @@~~) were overexpressed in various cancers. The presence or absence and/or level of expression of 20q13 proteins can be indicative of the presence, absence, or extent of a cancer. Thus, 20q13 proteins can provide useful diagnostic markers.
